

TITAN USJE, TITAN GROUP

IS HIRING

PROCESS ENGINEER

Join our team at Cementarnica USJE, a leading player in the cement industry committed to excellence in manufacturing and sustainability. We are dedicated to producing high-quality products while minimizing our environmental footprint. As we expand our operations, we are seeking a skilled Process Engineer to join our dynamic team.

JOB BRIEF:

The Process Engineer will be instrumental providing supports, leading and overseeing the optimization of plant performance by managing process improvement initiatives, ensuring alignment with strategic goals, and fostering collaboration across teams to achieve operational excellence and cost efficiency.

KEY RESPONSIBILITIES:

- Monitor and analyze key process and operational parameters, guiding the resolution of deviations and driving data-informed decision-making.
- Support plant production optimization and energy efficiency strategies to meet and exceed defined quality standards.
- Develop and oversee the execution of cost-reduction initiatives and performance enhancement programs.
- Conduct process inspections, audits, and technical evaluations, ensuring the effectiveness of corrective actions through collaboration with production and maintenance teams.
- Perform detailed analysis of key process trends, developments and changes in equipment performance behaviors in day-to-day plant operations.
- Pinpoint issues in business processes by examining process data, metrics to create process workflows and designs that adhere to group guidelines with legal standards.
- Coordinate and validate benchmarking studies, ensuring the integration of best practices into plant operations.
- Perform technical evaluations as needed to help ensure the success of new installations and modifications.
- Manage the planning and execution of new installations, upgrades, and commissioning processes.

SKILLS AND QUALIFICATIONS:

- Bachelor's degree in technology or chemical engineering.
- Experience of 6 - 8 years of in production operations.
- Good knowledge & exposure of process tools and latest developments.
- Knowledge of energy audits
- Planning, Cost & Data analysis
- Be able to present and explain the process vision, goals, and improvements in a clear and concise manner.
- English proficiency, advanced level of written and verbal English

PREFERRED ATTRIBUTES:

- Analytical thinking, troubleshooting & problem-solving skills
- Excellent communication and Interpersonal skills.
- Ability to work effectively in a fast-paced environment and lead a team.
- Has a strong business sense and can decipher priorities and make sound judgment calls when needed,
- Commitment to excellence - perform duties at the highest level possible.

WHAT WE OFFER:

- Attractive remuneration and benefits package, including:
 - Incentives and bonuses
 - Wellbeing incentives: Private medical insurance, free sports activities, free weekday lunch, free legal, financial & mental health consultations
 - Maximum vacation allowance
 - Parental and family benefits
- Career development and training opportunities
- Positive, encouraging and attractive working environment
