

Job announcement

Company	InfoSoft Systems Doo Skopje
Department	System Integration
Title	Senior system engineer

Introduction:

An excellent opportunity for a System engineer in a System Integration area, to join a regional market leader Company.

The System Integration department is the technical know-how centre and home of technical competences for building the best hybrid cloud solutions and to supporting our customers. This role is suitable for senior level candidates.

What You'll Do

- As a Senior System Engineer, you are best placed to discover the infrastructure challenges of our customers and to make suggestions for improvement.
- Plan, Design, develop and implement complex Data Center solutions and help our customers migrate to the future.
- Serve as regional subject matter expert
- Develop strong technical relationships within the target accounts and account teams; serve as trusted advisor to account teams & customers
- Work closely with all team members to interpret and evolve requirements into product features
- Actively work with customers to meet technical challenges and SLAs, with a proactive and preventive approach to problem solving
- Plan, organize and prioritize personal and team workload

What You'll Need To Be Successful

- Bachelor and/or Master's degree in Computer Science or similar and related areas
- Able to operate effectively in a team environment with both technical and non-technical team members and deliver projects on time
- Proven experience with production systems and dealing with production issues
- Experience in Enterprise Data Storage and/or Backup systems
- Experience with setting up, tuning and troubleshooting database clusters
- Experience in working with SAN attached (FC, FCoE) systems, Linux or UNIX platforms
- Experience in application server platforms (Apache Tomcat, Oracle Glassfish, IBM WebSphere)
- 5+ years experience in the above areas
- Good team player with excellent interpersonal & communication skills;
- Excellent verbal and written communication skill in English Language.

What You Can Expect From Us

- In addition to a competitive base salary, this position provides incentive compensation that rewards the individual based upon assigned objectives. Statutory benefits also provided in accordance with local laws and practice.
- Great opportunity to join a Balkan wide recognized & market leading company - InfoSoft Systems Group is amongst the top systems integrators with more than 28 years of experience;
- Liberal and enriching environment for experiencing state-of-the-art technologies, by working closely with the industry leading vendors;
- Work from home option

Qualified candidates should submit the letter of interest and their CV, to the following email address: hr@infosoftsystems.mk, with „Subject“ indication: Senior System Engineer

Only qualified candidates will be called on interview.

The CV-s must be in English. The closing date for applications is 05.03.2020.

The personal information that you will submit through your application, will be protected and used only for recruiting purposes, according to the legislation for the protection of personal information, the Law on Personal Data Protection ("Official Gazette of the Republic of Macedonia" No. 7/05, 103/08, 124/08, 124/10, 135/2011, 43/2014 and 153/15).
