CLOUD SECURITY OFFICER (m/f/d)

We are looking for a Cloud Security Officer to join our team in SKOPJE.

Quipu is an IT consultancy and software development company, which provides comprehensive end-to-end solutions for banks and financial institutions, from electronic payments to software systems. We are a 100% subsidiary of ProCredit Holding, the parent company of a group of banks that specialize in providing financial services for SMEs.

Headquartered in Frankfurt, Germany, we are currently operating from 8 regional offices around the world - in El Salvador, Ecuador, Ghana, North Macedonia, Kosovo, Ukraine, Russia and Romania - enabling us to promptly address the needs of a global customer base.

As an international organisation, we value diversity and we are dedicated to a culture of growth and innovation, creating an environment where everyone has the opportunity to develop their skills and fulfil their potential.

What your key responsibilities will be:

- Review the current cloud security measures, recommend enhancements, identify areas of weakness, and respond promptly to possible security breaches
- Collaborate with Engineering and Software Development teams to incorporate strong security controls, apply security best practices in development life cycle, and mitigate security vulnerabilities
- Develop and drive the implementation of a security architecture that supports company's goals and deliverables, through strategy, design and requirements
- Building and operating automated security operations
- Perform security evaluation of cloud setup in new projects, assess major changes in cloud infrastructure and define relevant security requirements
- Monitor security events from relevant cloud services and conduct the required investigations
- Develop and maintain cloud security related policies and procedures
- Analyse security best practices and trends and provide appropriate recommendations

- Coordinate investigation process of security incidents and problems

Skills and experience we expect from you:

- University degree in Computer Science, Cyber Security, Information Security, Information Technology or related field
- Strong understanding of IT security principles in certain security domains
- Knowledge of industry trends in security and cloud technologies
- Professional experience in the information security and technology field
- Ability to partner and collaborate with both technical teams and business users
- Highly proficient in spoken and written English

What we offer:

- Excellent team-oriented, dynamic and international working environment
- Challenging, engaging and varied tasks
- Personal and technical skills development with certified trainings
- Modern workspace close to Skopje City Park
- Travel possibilities
- 25 paid vacation days
- Private health insurance
- Free parking space

If you see yourself in this role, let us know in an e-mail, we would like to get to know you.

*Send us your application including CV, motivation letter, salary expectations and Job ID 21039 at joinus@quipu.de, by **07.02.2022.***
