

SOFTWARE QUALITY ASSURANCE AUTOMATION ENGINEER (m/f/d)

We are looking for a Software Quality Assurance Automation Engineer to join our team in SKOPJE.

Quipu is an IT consultancy and software development company, which provides comprehensive end-to-end solutions for banks and financial institutions, from electronic payments to software systems. We are a 100% subsidiary of ProCredit Holding, the parent company of a group of banks that specialize in providing financial services for SMEs.

Headquartered in Frankfurt, Germany, we are currently operating from 8 regional offices around the world - in El Salvador, Ecuador, Ghana, North Macedonia, Kosovo, Ukraine and Romania - enabling us to promptly address the needs of a global customer base.

As an international organisation, we value diversity and we are dedicated to a culture of growth and innovation, creating an environment where everyone has the opportunity to develop their skills and fulfil their potential.

What your key responsibilities will be:

- Work with the cross-functional teams to ensure quality throughout the software development lifecycle
- Agreeing with the business analysts, software QA assurance specialists and development team on verification protocols
- Designing automated software test procedures
- Automating regression tests on base of the provided test scenarios
- Reviewing software bug reports and highlighting problem areas
- Writing automation scripts and implementing software applications
- Continuous maintenance and improvement of the automated test procedures
- Troubleshooting automation software
- Identifying quality issues and creating test reports

- Collaborating with the development team to solve application faults
- Participate in the analysis for the incidents resolution

Skills and experience we expect from you:

- University Degree preferable in scientific field (Computer Science, Engineering, etc.)
- Programming skills
- Knowledge of scripting languages, Python, C#, SQL
- Knowledge of the testing tools such as Selenium, Ranorex
- API testing tools , such as PostMan, SoapUI
- Responsible way of working with attention to details
- Critical thinking and analytical skills
- Problem analysis and problem solving
- Customer service orientation
- Good English language skills, both spoken and written

What we offer:

- Excellent team-oriented, dynamic and international working environment
- Challenging, engaging and varied tasks
- Personal and technical skills development with certified trainings
- Modern workspace close to Skopje City Park
- Travel possibilities
- 25 paid vacation days
- Private health insurance
- Free parking space

If you see yourself in this role, let us know in an e-mail, we would like to get to know you.

*Send us your application including CV, motivation letter, salary expectations and Job ID 22038 at joinus@quipu.de, by **15.09.2022**.*
